

# HT2000

## WHOLE HOUSE REVERSE OSMOSIS SYSTEM

### Features

- All the benefits of soft water without the softener (or the salt!)
- Low energy, high-production membrane reduces impurities by as much as 99%
- Diverts rinse water to other uses across your property
- Extends the life and increases the efficiency of your appliances by reducing mineral build-up
- Keeps your laundry looking newer for longer

### The Evolution of Water

The Puroserve HT2000 offers whole house water softening through Reverse Osmosis purification. The HT2000 removes hardness without the use of salt or other chemicals. With the ability to filter up to 99% of contaminants out of your water, you can be secure in knowing the water your family drinks is safe and secure. And because your rinse water can be diverted to other uses throughout your property, you can have the peace of mind knowing that you're maximizing your water dollar while using no more water than you need. With all these features, it's easy to see that Puroserve is the EVOLUTION OF WATER.

### Reduces
